

# Sprint Planning

To plan our sprints we are using Trello, an online tool to help organize everything from user stories, pictures, things we are currently working on, and things we have completed.

# Sprint planning week 1

**Scrum master:** Jonas Arvidsson

**Product owner:** Micheal Tran

## To do:

- Everyone should learn how to use git and familiarize with android development
- Agree upon an idea to get a quick start on the project, even if our idea changes later

## Sprint planning week 2

**Scrum master:** Micheal Tran

**Product owner:** Jonas Arvidsson

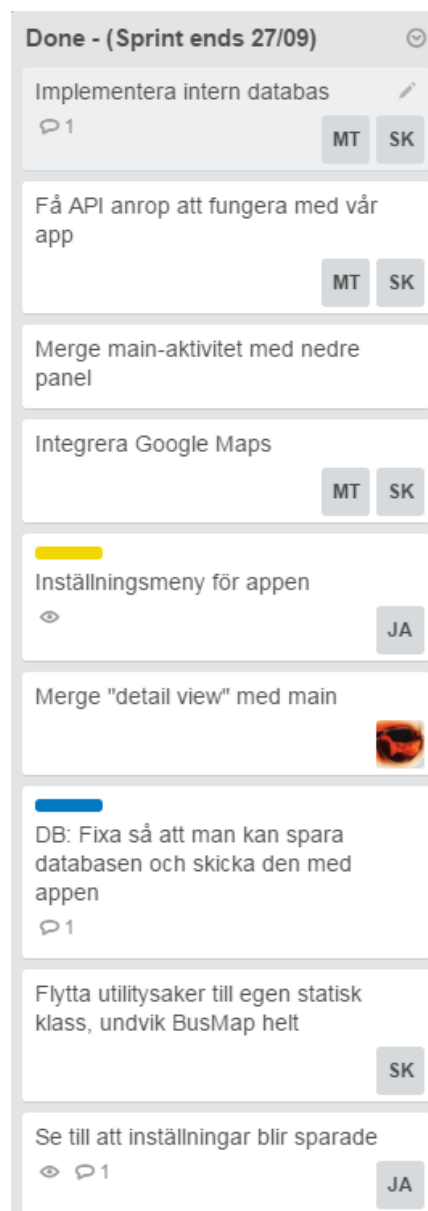

- Initial commit to github
- Come up with user stories
- Continue learning android

## Sprint planning week 3

**Scrum master:** Patrick Franz

**Product owner:** Kim Berger

- Start using the Trello boards.
- Mark each task with the name of those working on it.
- Move task to DONE when completed.

## Sprint planning week 4

**Scrum master:** Kim Berger
